Education

University of Florida - Gainesville, FL

May 2028

Bachelor of Science in Computer Science

GPA: 3.59

- Relevant Coursework: Data Structures & Algorithms, Computer Organization, Operating Systems, Discrete Structures, Introduction to Software Engineering

Projects

Golf Mullet [GitHub](#) | [Site](#)

January 2025 – Present

React, Node.js, Express, MongoDB, Vercel, Render

- Developed and deployed a **full-stack e-commerce application** for a client using **React, Node.js, Express, and MongoDB**, translating business requirements into a production web application
- Engineered **REST API endpoints and MongoDB data models** for product retrieval, user accounts, and authentication, implementing **JWT-based authentication** and password hashing
- Built interactive shopping functionality including **product browsing, search, favorites, cart management, and account features**, deploying the frontend through **Vercel** and backend through **Render**

HiberGator [GitHub](#)

April 2026

React, Python, Django, MongoDB

- Led technical development of a **full-stack sleep-management application**, coordinating implementation and integration across frontend, backend, and database components
- Diagnosed and resolved implementation and integration issues across team members' code, providing technical guidance and debugging support throughout development
- Contributed to application architecture and feature integration while coordinating development tasks and resolving technical blockers across the team

Experience

Tutor

August 2023 - May 2024

- Tutored students one-on-one in Calculus, Algebra, and Geometry, developing individualized exercises to reinforce problem-solving skills.

Skills

- Languages: Python, C++, JavaScript, TypeScript, RISC-V Assembly
- Frameworks/Libraries: React, Node.js, Express, Django, Tailwind CSS
- Technologies: MongoDB, Git, GitHub, Linux, Jira, AWS
